BRITANNIA

A classy watch that emphasizes your elegance in dress.

In the best tradition of dress watches, the Britannia collection offers an understated and clean design, perfect for defining the wearer's elegant style.

Made of polished steel in a variety of dial colors, this watch collection is intended to offer the option of finding the best aesthetic solution to one's style of dress.

The watch has a thickness suitable for wearing under a shirt cuff and is the perfect companion for occasions when full dress is a must but also in less formal situations.

The elements on the dial are kept to a minimum, making it extremely clear and pleasant to read the time.

The dials available in four semi-gloss colors with shaded finishes give the product great luminosity by perfectly matching the shiny metal reflections of the applied indexes, case and strap.

The exclusive metal bracelet is composed of three-piece semi-circular links complemented by an elegant clasp engraved with the Stewart Dawson logo.

The hands have SuperLuminova treatment to be able to ensure clear reading of the time even in low light.
